

ASC Student Supercomputer Challenge 2020-2021

Preliminary Round Thesis

TOSA ASC

December 14, 2020

Abstract

[Abstract here. 120 words]

Contents

1	Introduction of the university department activities in supercomputing	1
1.1	Supercomputing-related hardware and software platforms . .	1
1.2	Supercomputing-related courses, trainings, and interest groups	1
1.3	Supercomputing-related research and applications	1
1.4	Key achievements on supercomputing research	1
2	Team introduction	1
2.1	Team setup	1
2.2	Team members	1
2.3	Teams motto	1
3	Technical proposal requirements	1
3.1	Design of HPC system	1
3.2	HPL and HPCG	1
3.3	Language Exam (LE) Challenge	2
3.4	The QuEST Challenge	2
3.5	The PRESTO Challenge	2
	References	2

1 Introduction of the university department activities in supercomputing

1.1 Supercomputing-related hardware and software platforms

[Draft Here.]

1.2 Supercomputing-related courses, trainings, and interest groups

[Draft Here.]

1.3 Supercomputing-related research and applications

[Draft Here.]

1.4 Key achievements on supercomputing research

[Draft Here.]

2 Team introduction

2.1 Team setup

[Draft Here.]

2.2 Team members

[Draft Here.]

2.3 Teams motto

[Draft Here.]

3 Technical proposal requirements

[Draft Here.]

3.1 Design of HPC system

[Draft Here.]

3.2 HPL and HPCG

[Draft Here.]

3.3 Language Exam (LE) Challenge

[Draft Here.]

3.4 The QuEST Challenge

[Draft Here.]

3.5 The PRESTO Challenge

[Draft Here.]
